## Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2022	Bachelor of Technology	Vaishnavi Institute of Technology & Science Bhopal	8.3/10.0
2018	Intermediate (Class XII)	Govt. Higher Secondary School, Chopna, Betul	73.5%
2016	Matriculation (Class X)	Govt. High School, Pahardpur, Betul	67.5%

## Summary

I am a skilled backend developer with 2 years of experience working with Node.js, specializing in building scalable server-side applications. I also have strong proficiency in frontend development using React and Next.js, along with hands-on experience in CSS, Tailwind CSS, and Git for version control. Additionally, I have experience working with cloud services on AWS, enabling me to deploy and manage applications efficiently. My diverse skill set allows me to work across the full stack, ensuring seamless integration between the frontend and backend.

## Experience

**IDEAL IT TECHNO | NodeJS Developer** December 2022 - Present

As a Node.js developer with skills in JavaScript, MySQL, Express, and Sequelize, you have the ability to build robust web applications with server-side functionality. Your expertise in JavaScript allows you to write efficient and clean code, while your knowledge of MySQL enables you to design and manage databases with ease. Using Express, you can create powerful server-side applications with minimal setup and configuration, and Sequelize provides a powerful ORM that simplifies database interaction s. With these skills, you can design, develop, and deploy scalable and performant web applications that meet the needs of your clients and end-users.

## Internship and Certifications

**Internship Newton School | Newton School Coding Boot Camp Full Stack Developer Training** January 2022 - November 2022

- Full Stack Web Development along with problem solving.
- Technical Stack Learnt: JavaScript, React, HTML, CSS, Bootstrap and Data Structure with Java.
- Participated in various coding contest organized by the platform.
- Working on various projects like Movies Booking app, Quiz app, Note App, And Game.

## Projects

**FUJN Global** ([link](#))

**Role:** Backend Developer

**Tech Stack:** Node.js, MySQL

**Description:** Developed the backend for FUJN Global, implementing RESTful APIs and managing MySQL databases for both web and mobile platforms. Key features included optimizing database queries, implementing secure user authentication, and ensuring seamless data integration across devices.

**SportConn** ([link](#))

**Role:** Full Stack Developer

**Tech Stack:** Node.js, MongoDB, Next.js, TypeScript

**Description:** Developed the full stack for SportConn, creating both frontend and backend components. Implemented RESTful APIs, managed MongoDB databases, and ensured a responsive design using Next.js and TypeScript. Key features included optimizing performance, implementing secure user authentication, and enhancing user experience across.

## Skills

Node.js  
Express.js  
SQL  
MongoDB  
React  
Next.js  
Tailwind CSS  
Git  
AWS
